

# HELP KEEP THE AMERICAN DREAM ALIVE

USCIS fee increases will have devastating consequences in our communities. You can help save lives and keep families together!

A new package of dramatic increases in the cost to apply for naturalization, get a green card or renew DACA could have devastating consequences for low-income immigrants. U.S. Citizenship and Immigration Services, or USCIS, published its new proposed fee schedule on Nov. 14, 2019. It includes proposed fee increases, the elimination of critical fee waivers that allow vulnerable immigrants to maintain their status and a transfer of more than \$200 million from USCIS to immigration enforcement.

				
Benefit Sought	Naturalization	Green Card	Asylum	DACA
Current Fees	\$640	\$1,225	\$0	\$495
Proposed Fees	\$1,170	\$2,195	\$50	\$765
% Change	83% Increase	79% Increase	N/A	55% Increase

We only have **30 days** to submit a comment and speak out about these discriminatory changes that make it harder for low-income immigrants to access the benefits of citizenship!
